**PETITION UNDER 37 CFR § 1.47 FOR EXAMINATION WITHOUT COMPLETION  
OF DECLARATION BY AN INVENTOR WHO REFUSES TO SIGN**

11/09/2006 LLANDGRA 00000011 121216 10577876  
04 FC:1463 Dear Sir:  
200.00 DA

The Assignees of the referenced patent application, Nicca Chemical Co., Ltd., and Honda Motor Co., Ltd., through their attorney, petition, pursuant to 37 CFR § 1.47(a), for completion of the filing of the referenced patent application and the commencement of examination, although the third named inventor refuses to sign the Declaration.

The referenced patent application is the United States national phase application of Patent Cooperation Treaty Application No. JP2004/015529, which was filed on October 20, 2004 ("the PCT application"). The PCT application is based upon, and claims priority from, Japanese Patent Application No. 2003-381233, which was filed on November 11, 2003 ("the Japanese application"). The patent application names four inventors, namely, Toru Saito, Hirofumi Tochikawa, Masahiro Makino, and Hideaki Tojo.

All of the named inventors except for the third named inventor, Masahiro Makino, have signed an English language Declaration and Power of Attorney, as well as an English language Assignment assigning their interests in the patent application to the Assignees identified above. Copies of the Declaration and Power of Attorney and the Assignment are attached to a Declaration submitted with this Petition. The Assignment is being separately filed for recording by the Assignment Branch.

The third named inventor, Masahiro Makino, has refused to sign the Assignment and the Declaration for the referenced patent application. Mr. Makino is a former employee of Nicca Chemical and the invention was made in the course of his employment. In order to prepare the documents necessary for completion of the filing of the referenced U.S. Patent Application, contact was made with Mr. Makino, requesting his signature on the necessary documents.

The first contact with Mr. Makino was made by Naoki Ogura of the Intellectual Property Administration Section of Research and Development Division of Nicca Chemical, via e-mail, on May 16, 2006, requesting to make an appointment with Mr. Makino to obtain his signature on the necessary documents. Copies of that e-mail and its English translation are attached as Exhibit A. Mr. Ogura did not receive a reply to this e-mail until May 25, 2006.

A second contact was made with Mr. Makino by Mr. Ogura on May 25, 2006, via e-mail, including an attachment of the documents to be signed. Mr. Makino replied by e-mail on May 25, 2006, indicating his refusal to sign the documents. Copies of this e-mail exchange and its English translation are attached as Exhibit C.

The last known postal address for Mr. Makino is: Sun East B 203, 615, Aza Higashida, Nishiarai, Furukawa-shi, Miyagi 989-6133, Japan. The last known e-mail address of Mr. Makino is makino-ma@nifty.com.

In proof of the foregoing facts, attached is the Declaration from Mr. Naoki Ogura.

The petition fee of \$200.00 set forth in 37 CFR § 1.17(g) is attached.

Since all requirements for completion of the patent application pursuant to 37 CFR § 1.47(a) have been met by this factual showing, and since the three cooperating inventors have completed the necessary Declaration, Petitioners request that the patent application be deemed complete, that notice be given of that decision, and that the patent application be forwarded to the proper technology center for examination.

Application No. 10/577,876

The petition fee set forth in 37 CFR 1.17(h) is attached.

1. I, Naoki Ogura, am a representative of the Intellectual Property Administration Section of the Research and Development Division of Nicca Chemical Co., Ltd. of Fukui City, Japan (Nicca Chemical).
2. An invention was jointly made by employees of Nicca Chemical and by an employee of Honda Motor Co., Ltd., of Tokyo, Japan (Honda Motor), for which Japanese Patent Application 2003-381233 was filed on November 11, 2003 (the Japanese application). The Japanese application named, as joint inventors, Toru Saito, Hirofumi Tochikawa, Masahiro Makino, and Hideaki Tojo, and was titled, translated into English, Method for Glossing Solid Surface and Film-Forming Coating Liquid. Nicca Chemical And Honda Motor are co-applicants of the Japanese patent application.
3. An international application based on and claiming priority to the Japanese application and which designated the United States and Canada was filed under the Patent Cooperation Treaty on October 20, 2004 as Application No. PCT/JP2004/015529 (the PCT application). The PCT application entered the national phase in the United States on April 28,

2006 and was accorded Application No. 10/577,876 ('876 application). This Declaration pertains to the '876 United States patent application.

4. Mr. Makino, the third named inventor, is a former employee of Nicca Chemical. The invention was made in the course of his employment.

5. In order to prepare the necessary documents for the filing of the Canadian and U.S. patent applications, I contacted Mr. Makino to request his signature on the necessary documents. A record of the negotiating process between Mr. Makino and me regarding the request for his signature is attached as Exhibit A. Because Mr. Makino's present address is unknown, I contacted Mr. Makino by e-mail on May 16, 2006 in order to arrange an appointment for a meeting with him to request his signature. Copies of this e-mail and its English translation are attached as Exhibit C. I did not receive a reply to this e-mail until May 25, 2006.

6. On May 25, 2006, I sent Mr. Makino another e-mail, requesting him to place his signature on the documents, and attaching to the e-mail the "English Patent Description," "Preliminary Amendment of Claim," "Declaration and Power of Attorney," and "Deed of Assignment" for the patent application in the United States, as well as the documents necessary for the application in Canada. My e-mail indicated that incentives for the assignment of inventions shall be provided in accordance with the terms and conditions stated in the "Control Procedures for Inventions and Ideas" and "Bylaws for Control of Inventions and Ideas" of Nicca Chemical. On May 25, 2006, I received an e-mail reply from Mr. Makino indicating that he refused to sign the necessary documents. Copies of this e-mail exchange, its English translation, the Declaration and Power of Attorney, and the Deed of Assignment, are attached as Exhibit B.

7. To the best of my knowledge and information, the last known address for Mr. Makino is: Sun East B 203, 615, Aza Higashida, Nishiarai, Furukawa-shi, Miyagi 989-6133, Japan. I communicated with him via e-mail at the following address: makino-ma@nifty.com.

8. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true, and further than these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of

Dear Mr. Ogura,

It's been a long time.

My answer to the patent issue is the same as before.

I cannot change my mind once I make a resolution.

Last time I refused. So, if this time I agree, it is a contradiction.
